This post is all about how to avoid that dreaded pile-driving-- or, as professionals call it, SPLAT. Providing you the best free downloads of the most popular carpentry software, this article will tell you everything there is to know about avoiding SPLAT. And this being an article on how to avoid SPLAT... well, let's just say we have a lot of information. But don't worry! You can always search for "How to Avoid Writer's Block" next time. That's what everyone does anyway-- right? Thanks for stopping by! We hope you find all the information you were looking for below. We'll see you again soon! Hey, welcome to the site! Do you like carpentry? Are you a Carpenter? Or do you make furniture for small dogs? Either way, we made this site for you. We know it's not always easy to know what tools and materials go best together. So our goal is to provide all the information and tools that will help any Carpenter (or Furniture maker) out there sort out their tools and materials and keep them well organized. We are big fans of carpentry at it! We have always had a strong interest in Carpentry. This has led us to become Woodworkers and Furniture Makers. Our goal is to help you find the tools that will make your job (and life) easier, and our site is dedicated to providing you with all the information you need to do your job the right way every time! As if we didn't give you enough, now we are finally releasing our very own line of tools! These are some of the best tools available (in our humble opinion). We bought them for obvious reasons; quality, price, etc... We wanted to make sure our users got the most bang for their buck. Enjoy!
