Lily Screensaver2 Screenshots: Lily Screensaver2 review: "What a fantastic idea this is! Lily Pictures screensavers are always a welcome addition to any desktop display, and this is no exception! Many of the lily images and the mountain photos are absolutely stunning, and the panoramic lily flower wallpapers are a really original way of presenting the different lily shapes. The plants are so well drawn, and I found the different varieties appealing, not only from a purely artistic viewpoint. The screensaver is easy to set up and the menus are fairly straight-forward. With the natural lily pictures, the different time-sliders are a nice way of helping you view the screen-shots as they appear on a real lily's flowers at different points in time. The screensaver has a nice, quiet soundtrack playing in the background as well, so that adds even more atmosphere to the screen display. All the images are really free of any distortion or technical problems, and they do tend to run pretty smoothly on a laptop computer. Overall, it's a really easy screensaver to setup and use, and one that will improve the appearance of your screen display, and you'll probably find yourself looking forward to seeing the lily flowers as the scenery changes from season to season." Lily Screensaver2 is easy to install and easy to use. The screensaver is free of any distortion or flaws. Screensaver with lily screen shots of the mountains and the lily flowers are really beautiful

I'm planning on making a huge batch of dumplings, but I'm not sure how to do it so that I don't end up overburdening the oven (and thus spoil the batch). My dumpling recipes call for: a 1 kilo of flour (I was using about 700g) 1 tablespoon of baking powder (I'm using about 9g) a pinch of salt (I'm using about 0.6g) At first I'd thought to mix the flour, baking powder and salt and make a mass of dough and roll it out to make a large number of dumplings, but then I remembered that there must be some sort of cooking time in my recipe, so I thought of making a
