

Best Laptops in 2023

I doubt that we'll see [4k 240hz laptop](#) monitors even within the next 2 years. When it comes to gaming, a high refresh rate is essential for a smooth and seamless gaming experience. A refresh rate of 240Hz means that the display can refresh 240 times per second, which eliminates screen tearing and stuttering, making it ideal for fast-paced games. While 4K resolution is great for a visual feast, it can be quite taxing on the hardware and the battery life. If you're looking for a cheap 240Hz laptop, here are a few options to consider:

Asus TUF Gaming A15: This laptop offers an AMD Ryzen 5 processor, 8GB of RAM, and NVIDIA GeForce GTX 1650 graphics, making it a great choice for budget gamers. It also has a 15.6-inch Full HD display with a refresh rate of 240Hz, making it one of the [cheapest 240Hz laptop](#) on the market.
