

Ferro Titanium Suppliers & Alloys in India

Trusted Solutions for Ferro Titanium Products

Bansal Brothers

Introduction to Ferro Titanium

Key component
in various
industries

Strengthens
steel &
alloys

Increases
corrosion
resistance

Improves high-
temperature
strength

India's Ferro Titanium Industry

- 1** Leading producer
Known for quality & reliability
- 2** Aerospace & Automotive
Key supplier for critical industries
- 3** Steel & Alloy Manufacturing
Essential element in steelmaking

Ferro Titanium Alloys: Properties & Advantages

High Strength
For demanding applications

Corrosion Resistance
Long-lasting performance

Lightweight
Ideal for aerospace & automotive

Ferro Titanium Lumps: Production & Application

High-
temperature
furnace process

Breaking
down into
lumps

Magnetic
separation for
purity

Ferro Titanium Cored Wire: Steelmaking Efficiency

- 1 — Precise alloying
- 2 — Reduced wastage
- 3 — Improved steel quality

Ferro Titanium Scrap: Recycling & Sustainability

Aerospace &
Automotive

Industrial
leftovers

Cost-effective
solution

Reduced environmental
impact

Why Choose Us?

1

High-quality
products

2

Customized
solutions

3

Strong business
partnerships
